

Earlier this year Ongwanada began revising the organizational structure to align services within and across departments, and to better align reporting structures. In an effort to continue this vision, effective Monday, December 18, 2023, the Medically Complex Settings, Barclay and Elizabeth, will be realigned under Clinical Services. Staff working within the Medically Complex Settings will continue to report directly to Wendy Marshall-Delonghi with oversight provided by Director, Clinical Services. The Medically Complex Settings will remain in Block 3 for scheduling purposes.

Leah Murray  
Director, Community Services

Jocelyn Fleet  
Director, Clinical Services
